**Gifted:** Karen Berk discussed Chapter 16 of the Pennsylvania Public School Code relating to guidelines for gifted programming and noted that we are obligated by law to provide screening for giftedness. CSD conducts screenings and evaluations to identify students who are gifted and in need of specially designed instruction. Universal screening of all students takes place in 2<sup>nd</sup> grade using SAGES-2 testing. Mrs. Berk explained that multiple criteria is used to determine giftedness, which include, rate of acquisition and retention, early and measured use of high level thinking skills, academic creativity, leadership skills, communications skills, foreign language aptitude or technology expertise.

Mrs. Berk indicated that students scoring high on screening will be tested further. Parents may also make requests to their child's guidance counselor for an evaluation. For developmental reasons, identification of students as gifted is not encouraged prior to second grade. Parents who wish to have their child evaluated prior to second grade should discuss their concerns with the guidance counselor. Determination of mentally gifted must include an assessment by a certified school psychologist.

Dr. McKeaney discussed K-12 Gifted Support Services which are tailored to students' individual academic strengths based on their initial Gifted Evaluation and on subsequent performance data. She discussed the in-class and out-of-class services for students identified as gifted.
