251 *Suicide Intervention*

The Board of School Directors of the Colonial School District recognizes that the number of students in today=s schools who are attempting to take their own lives or actually do commit suicide is increasing and we must make every effort to reduce this adolescent suicide rate.

The school system alone cannot be expected to solve all of the social problems that affect our students. However, it shall be the policy of the district to attempt to prevent suicide, to identify those students who may be at risk, and to handle wisely and sensitively the crisis that may result when a suicide occurs in the schools.

The Superintendent of Schools shall establish appropriate administrative regulations to implement the above policy.
