	Applied Biology	> Astronomy <u>or</u> Chemistry in the Community <u>or</u> Environmental <u>or</u> Marine Science

OTHER THINGS TO CONSIDER

- Teachers will have had conversations with you by this point regarding their recommendations for your future course selection
- Review the Course Catalog on the Counseling page of the PW website
- **You must take Health and Fitness 2 if you did not take it in 10th grade**
- World Language should be continued if you are doing well in it
- Your junior year schedule should be as rigorous as your previous years' schedules
- Consider your Career Pathway when selecting your courses as they should reflect your future goals
- AP classes are year-long and cannot be dropped after the first three days of semester 1; No semester 2 drops
- It is your responsibility to review the graduation requirements and be sure you will fulfill them

You will be meeting with your counselor to review your selections and your graduation requirements between March 14 and April 5, 2019.
